

DOCUMENT : Des familles qui se sont fait injecter ensemble développent des turbo cancers ENSEMBLE. Jusqu'à 4 dans une même famille

Par **Planetes360** -

Families that inject mRNA together, develop Turbo Cancer together? - 12 unbelievable stories of two or three family members developing aggressive cancer at the same time!

DR. WILLIAM MAKIS MD
AUG 9, 2023 - PAID

On May 27, 2023, I wrote a substack article about multiple COVID-19 vaccinated family members, who died suddenly.

Now, I am starting to see multiple COVID-19 vaccinated family members develop Turbo Cancers (often stage 4) and their stories are shocking and difficult to believe.

(VIDEO ABOVE) July 18, 2023, San Juan Capistrano, CA - Parents of 3 children, Zak and Cori Salazar were both diagnosed with cancer, mom Cori with an "aggressive form of thyroid cancer" had two surgeries and dad Zak was diagnosed with aggressive Stage 4 Astrocytoma and just had surgery ([click here](#))
